

# Lufthansa Bombardier Aviation Services

Maintenance - Interior - Modifications

**Make the most of  
your downtime**

**yearsofexcellence**

# One-stop shop - from heavy maintenance to cabin furnishing

We offer **a comprehensive range of services** that covers all aspects of technical support for your Bombardier Business Aircraft. **We provide fully-approved Bombardier warranty work and all-round services**, including the full spectrum of line and base maintenance activities, structural inspections, engine services, cabin refurbishments and retrofits, comfort upgrades and modifications.

We are **the specialist for all Bombardier Business Aircraft products** and our 220 MRO experts know them inside out. Our comprehensively trained and qualified technical staff have an average of fifteen years' hands-on experience.

As a member of the Lufthansa Technik Group and part of **Bombardier's Service Centre Network**, we live up to their most stringent

quality standards. These are widely considered to be the industry benchmark for excellence. We expect the same desire, motivation and technical expertise from our handpicked cooperation partners so that we can offer you the best solutions.

With EASA and FAA Part 145 licenses, and 11 other national maintenance organization approvals, we are your ideal technical partner. As a Part 21J Engineering Organization, our specialists are passionate about finding a balance between modern lifestyle and functionality by reflecting the owner's individual tastes and personality. Our engineering services include avionics, navigation technologies, innovation and development, as well as communication and network technologies.

## Reduce your costs by combining major checks with interior refurbishment and modifications

# On-time departure

**We deliver dedicated base maintenance services up to the most demanding heavy maintenance checks.**

From a simple tire change to a 120-month inspection on a Global, a 96-month inspection on a Challenger or a 12-year inspection on a Learjet, we provide the highest quality experience to our customers.

Being a Designated Alteration Station for engineering, we are capable of designing, certifying and supporting maintenance and modifications.

As one of just two Bombardier Service Centres in the whole of Europe, **our staff is committed to getting you back up and flying faster**, with quality-driven, 24/7 customer service and comprehensive capabilities.

**Approvals:**

- Aruba
- Belarus
- Bermuda

## Short downtimes and the best value for money

# The highest quality standards for all aircraft interior solutions

**With over six decades of high-class performance**, the pioneering cabin outfitter F/LIST is our exclusive partner for all aircraft interior solutions. Founded in 2017, the subsidiary F/LIST GERMANY, cooperates closely with us to create opportunities for you that go beyond what you imagined.

Be it interior or exterior detailing, installation of fine carpets, upholstering of seats, divans and sidewalls, sewing of curtains, polishing of wooden cabin surfaces, complete cabin refurbishments or retrofits – **our cabin specialists are ready to perform any work on cabin interiors**, or cosmetic repairs on exteriors, while inspections are being carried out.

It is our pleasure to design your Bombardier Business Aircraft cabin according to your individual specifications. We use only the finest materials for your comfort and take meticulous care of even the smallest details. As a Part 21J certified design organization, **our engineers see each project through to the final release to service**, in accordance with the applicable airworthiness requirements.

From design consulting to the production of your individualized interior, this is Austrian and German engineering, handcrafted in Berlin and Thomasberg.

## F/LIST

### Base maintenance time is the ideal opportunity to spruce up the cabin

# Stay connected wherever you go

## **Our aim is to improve your flight experience.**

Whether you are interested in cabin management, in-flight entertainment systems or upgrading communications, we are able to satisfy your every need. Together with our cooperation partners, we supply certified installation of Lufthansa Technik nice® HD and other state-of-the-art entertainment systems, update and upgrade communications like satellite TV, SatCom and high-speed internet, as well as the most sophisticated interior products from INAIRVATION.

Being a Bombardier Service Centre, **we have full access to Bombardier in-house Supplemental Type Certificates (STC) and OEM engineering information**, which allows us to offer you customized modifications.

We are your ideal partner for updating your systems and upgrading your Bombardier Business Aircraft. **Our highly qualified engineers will work closely with you to find the best solutions to all of your communications needs.**

**nice**® HD

**INAIRVATION**

Always innovating so you can go further

# Efficient production standards maximize the availability of your aircraft

Thanks to our close relationship with our elite partners, **we can offer you one-stop shop solutions and the chance to put your ideas in motion.**

Our dedicated team of more than 220 experienced technicians is available each and every day of the year. We are constantly working towards improving the flexibility and simplicity of our maintenance process before, during and after downtime. **Our main goal is to fulfill your expectations** with innovative products, tailored service and, of course, budget awareness.

Being the Bombardier maintenance specialist means not only paying attention to the highest quality standards but also placing the utmost importance on values like trust and partnership, sincerity and reliability.

We promise to take care of all of the details while you rest assured that you are getting the highest level of safety, the chance to lower your maintenance costs, and, most importantly, the continued smooth operation of your aircraft – **because you deserve to fly relaxed.**

## Go with the best for your Bombardier Business Aircraft
